"KENDAL" DAHLIAS IN A BANGKOK, SIAM GARDEN

Kendal Dahlia Gardens, Inc.
Sandusky, Ohio, U. S. A.

Bangkok, Siam, February 22nd, 1933

Dear Sir:—

We are sending you, the result of your Dahlias* ordered from us, a photograph of the Dahlia flower measuring the length of the flower, about 8½ inches. If you should take a copy of this you may do so and kindly return this photo to us when you are at convenience.

Thanking you always,

Yours faithfully,

THANILL

For.....Nursery

* The above Dahlias were ordered from us and planted Spring of 1932.—K. D. G.

"Girrahween," Nathan Avenue, Ashgrove
Brisbane, Queensland, Australia, June 24, 1933

Enclosed please find Money Order for £2 (2 pounds English)* for which forward me Dahlia Bulbs. I have not received catalogue up to the present so I have taken these from another one. Should you be out of some, I will leave it to you to do your best.

The bulbs I received from you last year gave every satisfaction. I liked Kendal Sweetheart, Avalon and Jane Cowl very much and got good results from the others ordered from you last year.

The ones I am ordering now are: Chemar's U. S. A., Harvest Moon, Islam Patrol, Jove, Marjorie Leigh, Ohio Giant, Adda Patterson, Lady Faire, Mrs. Ethel F. T. Smith, Miss America, Alice Whittier.

You can send bulbs to reach here during August.

Hoping to receive same in the same good condition as last.

* £2 at the time this Money Order was given, was worth \$8.20.—K. D. G.

KENDAL DAHLIAS GROW ANYWHERE

C. W. STUART

We present herewith our Sixth Annual Catalog to our many customers and Dahlia-loving friends in the United States and the world and extend you our heartiest greetings and best wishes for a happy and prosperous 1934. May it bring to you health, happiness and prosperity and a renewed faith in yourself and those around you.

1933 was in many respects a memorable year. It's uncertainties in the winter and spring caused many either to forego purchase of flowers or to purchase fewer in number, and less in cost; yet, while our volume of business was reduced in 1933, we served the greatest number of individual customers of any year since we began to grow Dahlias commercially, six years ago. The love for flowers is too strong in people for even a year like last year to cause them to deny themselves the inspiration that only flowers can give.

We rejoice with you that events last summer and fall has brought to us conditions much improved and with highly encouraging evidence that we have entered a new era of prosperity that will enable us to restore some of the things we felt we could not afford, and to resume a normal state of living with assurance that it will continue.

We grew and harvested our usual 26 acres of Dahlias in 1933, about 125,000 hills of 600 varieties. The summer was dry enough to make the Dahlias "dig in," thus giving them vitality, and ample rain in September and October matured our Dahlia roots under ideal conditions. It will continue to be true that "Kendal Dahlias Grow Anywhere."

Under the new improved business conditions, our costs were increased in the production and handling of Dahlias. So are our costs increased in our preparation for marketing, our catalogs, and other advertising, our office and other fixed expenses, yet we bring you not only the tiny one inch pom and the large exhibition Dahlia that is the sensation of the Show Rooms, but all those other interesting and fascinating forms, types and colors of Dahlias which lend themselves to your garden planting, your home decorations, and your artistic arrangements, and at a **PRICE LOWER THAN EVER BEFORE**. We do this relying on an increased volume of business to justify it. We know you will appreciate it.

Not only that, but our Catalog brings you a selection of 600 different Dahlias. We do not believe that any other grower in the world grows as many varieties for your selection as we grow. Our Catalog describes briefly and succinctly. These descriptions with accompanying instructions makes it a valuable reference book. Consult it often.

We have large stocks of many of the popular standard varieties, many of them of exhibition size which we have combined in assorted types and colors in collections and at greatly reduced prices. They are bargains and you will do well to take advantage of these offers. Their performance will please you.

We have increased our "Good Will" Offer of free roots of 15 per cent in 1933 to 20 per cent in 1934, thus giving you still more Dahlias for the money you spend with us. Besides your order to us in 1934 will entitle you to a 10 per cent cash discount on your 1935 order. Ordering from us in 1934 is worth money to you in 1935.

We are now growing our own Cannas and Peonies and we quote a substantially lower price on these nursery items for prime number one stock.

Write us next fall of your Dahlia successes. Write us also about your failures and problems. We want to know about both, and if you are motoring east or west next fall on this State Route 2 or 6 east of Sandusky from August 20 to October 20, you will see a treat in beautiful Dahlias, if you will stop and visit our gardens.

Our 1935 Catalog will be mailed from January 15 to February 1, 1935. Next year be on the lookout for it.

Again we thank you for your patronage. You've been fine. We await with interest to hear from you this spring. May 1934 bring us good luck together.

If you are not interested in this catalog, will you please pass it along to your neighbor?

General Information and Instruction

READ CAREFULLY

ORDER EARLY

Orders are reserved strictly in rotation and are forwarded when requested or as danger of frost is past. Unless otherwise instructed, roots will go forward for latitudes north of the Mason and Dixon line May 1st to 20th, except seeds which will be sent at once, and plants after May 15th unless requested sooner, at customer's risk. It will assist us materially in filling orders at the proper time if our customers will specify the approximate time they wish to have their roots shipped. For this latitude the best time is May 20 to June 15. Planting in the South may be made earlier.

PRICES QUOTED

Prices quoted are for strong divisions of field grown roots which have not been used for propagation and include the prepayment of postage on retail orders over \$2.00. On orders of less amount than \$2.00 a charge of 10c is made for postage and packing, which please include. The same applies to green plants. **We make the usual discount to the wholesale trade. On wholesale orders, forwarding charges are paid by purchaser.**

SUBSTITUTION

We have ample stocks of most all varieties quoted to fill expected orders,, but there is the possibility that some of our varieties may become exhausted; however, we do not substitute for any varieties which may be sold out unless expressly permitted to do so and if we receive your order and are out of any particular variety you select, we will refund your money unless you authorize us to send the nearest in color, habit and price to the variety ordered. Please advise a second choice in case you desire us to substitute if necessary, especially for orders late in the season.

TERMS

Unless otherwise arranged, cash must accompany all orders. If it is desired to have shipment made C. O. D., then 25% of the purchase price should accompany the order. Orders will be reserved upon payment of 25% cash at time order is given, balance C. O. D. when shipped. Please remit by check, money or express order or postoffice order.

GUARANTEE

While every care is exercised in digging, planting and packing, that none should be mixed, no guarantee is given other than to replace any stock that may prove not true to name. If shipment does not arrive in good condition, please notify us at once, returning roots, which will be immediately replaced, and if any dahlia root does not begin to grow or show signs of growth within four weeks after planting, please return it and the same will be replaced free of charge. We recommend and use green plants of dahlias but cannot be responsible for losses in plants after they are set out. There are so many things that can happen to them not our fault or the fault of the plant, that we cannot accept the responsibility of replacing plants. However, our experience with plants is entirely satisfactory.

STATE INSPECTION

Each shipment of dahlias we make is accompanied by a certificate of the Director of Agriculture of Ohio, showing that our nursery, consisting of Perennials and Bulbs, have been inspected by a duly authorized inspector in compliance with the law and found apparently free from dangerously injurious insects and plant diseases.

CULTURAL DIRECTIONS

Sufficient cultural directions for the raising of dahlias are given toward the end of this catalog, both for seed and for roots. Read it. Full cultural instructions will also be sent out with each order.

ERRORS

In the rush of the shipping season, errors are possible to occur, and we, like all human beings, are apt to make a mistake. However, we will consider it a favor to be notified at once so that we can rectify the same. If you have a complaint, tell us first. If you like our treatment, tell others.

NEW DEAL OFFER

As an inducement for your order in 1934, if your order amounts to \$3.00 or more, you may select in addition to your order, when accompanied by cash, dahlias from our catalog to the amount of 20% of the original order. For instance, with a \$5.00 order, select \$1.00 extra; with \$25.00 order, select \$5.00 worth and so on. These will be sent to you free postpaid. No extra or free extra on collections as they are priced at a great reduction already. No cash discount allowed.

FREE COURTESY EXTRA

When ordering, if you will send a few names and addresses of friends whom you think would be interested in receiving this catalog, we will remember you with an extra, **our selection**, for your kindness.

AND FINALLY

Be sure to sign your order, writing your name and address plainly, including street number, city, county and state; and **ORDER TODAY**.

CLASSIFICATION OF DAHLIAS

For purposes of description in this catalog all Dahlias are described according to classification recommended by the American Dahlia Society in 1930. Since there is considerable confusion and all authorities are not unanimously agreed on the exact classification of some of the varieties, we will list our Dahlias under the general headings. We have no doubt some of the Dahlias that we consider Informal Decorative will be listed by some as Semi-Cactus and vice-versa. We have no argument with them.

In the catalog following, FORMAL and INFORMAL DECORATIVE DAHLIAS will be listed under the one heading; INCURVED, RECURVED and STRAIGHT, and SEMI-CACTUS DAHLIAS will be listed under a single heading; PEONY AND DUPLEX DAHLIAS will be listed under a single heading; BALL DAHLIAS will be listed under the heading BALL DAHLIAS; POMPOMS will be listed under POMPOMS, and SINGLE, COLLARETTE AND ANEMONE DAHLIAS will be each listed under a separate heading.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

OUR OWN ORIGINATIONS AND INTRODUCTIONS

KENDAL GLORY C (Kendal)—A clear rose red shading to coral. A large sized Dahlia of the true cactus type. Its attractive spidery bloom of 6 to 8 inches and depth of 3 inches is well formed and well supported on long, wiry stems. Its coloring is unique and it lasts well as a cut flower or on the stalk in the garden. \$1.50 each, plants 75c.

KENDAL GOLD P. (Kendal)—A golden yellow peony flower whose center is entirely covered with incurved petals. Plant is a vigorous grower covered with 5 to 8 inch flowers on good stems. 40c each, 3 for \$1.00.

ERIE GIANT F. D. (Kendal)—Color, a very pleasing lilac-purple produced on exceedingly sturdy plants about 4 feet tall. It's large leaved, tough foliage sometimes gives the plant the name of "Leather Breeches." 10 inch bloom on good stems, not unusual. 50c each.

PEARLE TEMPLIN BRADLEY F. D. Kendal-Templin-Bradley—Burnished old gold shading amber bronze to center with a flush of jasper red. Named in honor of Pearle Templin Bradley of the Templin-Bradley Company of Cleveland. Has wonderful blooms extending on long, stiff stems out of a deep green and insect resisting foliage. Toward the end of the season it is covered with a mass of bloom. It is priced to make it available to everybody. 50c each.

EDIE K.—F. D. (Kendal)—A very popular seedling in our gardens. Grows to about four feet in height, branches well, has insect resisting foliage, producing 5 to 7 inch flowers on long stems. Color, a suffusion of salmon, gold and pink. One of the first Dahlias to bloom in our gardens, it continues tight-centered until frost. Especially good for cut flowers. 50c each, 3 for \$1.35.

KENDAL FRAGRANCE. P.—A golden flower with just a blush of jasper red. Center covered with in-

curved petals. It is one of the few Dahlias which has fragrance when in full bloom. Hence its name. A good grower and a free bloomer. 35c each.

KENDAL ROBUSTICUS F. D. (Kendal)—A light orange yellow flower with a little jasper red around the center. Stalks 2 to 3 inches in diameter and 8 to 10 feet tall branching like a willow tree prompted the name "Robusticus." Flowers 7 to 8 inches in diameter on stems 6 to 12 inches without dis-budding cover this huge bush of deep green heavy, disease and insect resisting foliage. \$1.50 each, plants 75c.

KENDAL SWEETHEART I. D. (Kendal)—Eosine pink shading to white in the center. 6 inch flowers on good stems and the sturdy, robust bush makes this Dahlia an exceedingly popular cut flower and garden variety. It has received praise East and West. You'll like it. 75c each.

KENDAL MARMARATA F. D. (Kendal)—A lavender blue flower on a tall stately plant whose stalk and foliage have the same general coloring as the flower. Plant is upright with many branches extending out at an angle of 45°. Pinching out the top bud of the main stalk, each of these lateral branches makes long stems for an 8 to 9 inch bloom which resembles the Marmarata Water Lily from which it takes its name. One of the prettiest Dahlias in our field. \$1.00 each.

KENDAL PURPLE GIANT F. D. (Kendal)—A huge deep flower of royal purple. Plant is very vigorous and robust. Blooms early, freely and late. Full center until frost. Very showy. \$1.00 each.

KENDAL AUTUMN GOLD F. D. (Kendal)—Color deep autumn gold. A very vigorous plant of insect and disease resisting foliage. Top or terminal bud of the main stalk should be pinched out when it shows. Many laterals will make a heavy, bushy plant, covered with 8 to 10 inch flowers from early to late season. A gorgeous flower and plant. \$1.00 each.

KENDAL IRIDESCENT F. D. (Kendal)—Pink and gold blended, giving an iridescent coloring to a very large flower on a very vigorous, robust bush. Tendency to hard centers under some conditions, but gorgeousness of flower coloring and foliage makes it outstanding as a cut flower variety. 40c each.

ROSE O' THE LAKE F. D. (Kendal)—Color is a rich, rosy lilac-lavender. Plants strong and vigorous growing to a height of 4 to 5 feet. Foliage is heavy, leathery, and insect resisting. Flowers are 8 to 10 inches, held facing up on good strong stems. Very good, 75c each.

PAISLEY S. (Kendal)—A single Dahlia, white background marked with red, giving the flower the pattern of a Paisley shawl. Named by a visitor in our gardens who noted the resemblance. Plant is tall, branches well, flowers prolifically. Stock limited. 40c each.

KENDAL CREAM PUFF (POM) (Kendal)—A rich creamy yellow fluffy flower aptly describes it and suggested its name. A vigorous medium sized plant producing many flowers on good stems and keeping well when cut. You'll like it. 30c each, 3 for 75c.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

DECORATIVE DAHLIAS

FORMAL DECORATIVE DAHLIAS. Fully double flowers, floral rays generally broad, either pointed or rounded at tips, with outer floral rays tending to recurve and central floral rays tending to be cupped; all floral rays in a somewhat regular arrangement.

INFORMAL DECORATIVE DAHLIAS. Fully double flowers, floral rays, generally long, twisted or pointed and usually irregular in arrangement.

Abbreviated "F.D." and "I.D."

Quotations of all Decorative Roots are for strong field grown divisions, each with one or more good eyes, guaranteed to grow and each root labelled.

ADALINE WINTER F. D. (Winter)—A brilliant, vermillion, carmine, oriental red Dahlia, making a good bush covered with flowers on good stems. It is one of the most dependable growers and good root makers in our gardens. **35c each, 4 for \$1.00.**

ALASKA F. D.—A clear white Dahlia, good grower, good plant, good stems, producing flowers freely. **\$1.00 each.**

ALBERT H. VESTAL I. D. (Eastman)—Color, a glowing old rose without any trace of any other color, springing up out of dark green foliage 8 inches above the plant. Petals a beautiful mass twisted and curled with a closed center throughout the season. Flowers 9 to 11 inches. Certificate of Merit American Dahlia Society Trial Gardens, 1929. **75c each.**

ALEX WALDIE F. D.—A large flower with a creamy ground overlaid with delicate salmon pink, held high above the foliage on fine stems. Named after one of the foremost Dahlia growers who died in 1930. It has won high praise everywhere it has been grown or shown. **35c each, 3 for 90c.**

ALICE STELLICK I. D. (Rindfleisch)—An unusually striking bicolor Dahlia, color bright crimson scarlet with glistening white stripe through center. A good grower. Hot weather makes early bloom droop. Sometime flower comes red. **\$2.00 each. Plants \$1.00.**

ALTAMONT I. D. (Kemp)—Rose pink deepening to American Beauty rose toward the center of the flower. Full decorative type with long, slightly curled petals. It averages 8 inches and over in diameter; stands the sun well, resembling Jersey Beauty in habit; tall grower, healthy and an early and abundant bloomer. It is a splendid keeper and very satisfactory for the amateur. **50c each.**

AMAZON I. D. (Ballay)—A large flower of bright coral pink, deeper at the center, with a suffusion of pale gold on inner petals on a plant which grows very erect. It attracts by the beautiful coloring and wealth of bloom. **50c each.**

AMUN RA F. D.—Sensational new Dahlia of distinct color and form. Color combination resembles a gorgeous setting sun. Copper, orange and gold, deepening to a reddish bronze at the center; a giant bloom on erect stems. **40c each, 3 for \$1.00.**

ANDREAS ERICSON I. D. (Fisher & Masson)—A pure white dahlia resembling Fort Monmouth in form. Won many prizes in 1930 and 1931. Flowers 10 to 12 inches in diameter on sturdy stems. **\$2.50 each. Plants \$1.25.**

ANN RUTLEDGE I. D. (Michael)—Color, Oriental fuchsia brilliant with lavender. Giant flowers borne on strong stems. Splendid keeper, excellent for cut flowers and exhibition purposes. Prize winner in West. **\$1.00 each.**

ARTHUR W. GREY I. D. (Veile and Mendham)—A large, strong, broad-petaled flower of a rich salmon, apricot, flushed orange and rose. Excellent stems and foliage. A 1929 Honor Roll dahlia, winning prizes east and west. **\$1.50 each. Plants 75c.**

ARCTIC SHADOWS F. D. (Harding)—A gorgeous new 1929 introduction from the original stock of Judge Josiah T. Marean. It has pure white center, shading outward pale mauve. **\$1.50 each, Plant, 75c.**

ASBURY PARK F. D. (Burpee)—Color, glorious autumn shade of bright strawberry-red, suffused with salmon and tinted with old gold toward the tips, giving a copper-salmon general effect. Plant grows 5½ feet tall with flowers 8 to 12 inches across on nice strong stems. Carries seven first prizes and a certificate of merit. **\$1.50 each, Plants, 75c.**

ATLANTIC CITY F. D. (Burpee)—Gorgeous flowers of rich golden autumn colors shaded amber-gold, orange, salmon, bronze, blended beautifully. 5 to 7 inch flowers on 3½ to 4 ft. plants of upright growth requires no stakes. Originator cut 37 flowers from one plant. **\$1.25 each.**

AURORA I. D.—Tan and gold with light red reverse. A good vigorous grower, a perfect bloomer with every good quality, well known and well liked in northern Ohio. A prize winner. **\$1.00 each.**

AUORE F. D.—Color, light gold. Tall growing plant branching well, producing many flowers of medium size. A good cut flower variety. **35c each, three for 90c.**

AVALON I. D. (Broomall)—Clear Canary Yellow. Very distinct and pleasing, producing a good plant which bushes well and blooms freely.—Flowers are centered on long erect stems. Thin out and disbud for 8 to 9 inch flowers. One of the best of its color. **50c each.**

AZTEC GLORY I. D. (Broomall)—A splendid exhibition variety of pure picric yellow with flowers of unusual form, making a very deep and shaggy flower. A low grower, yet it has excellent stems and vigorous foliage. **75c each.**

BAGDAD I. D. (Redfern)—Flaming scarlet red. Winning in shows east and west. A tall sturdy grower blooming freely and holding its color in sunlight. **\$1.50 each, Plants 75c.**

BARBARA REDFERN I. D. (Redfern)—A 1927 and 1928 Roll of Honor Dahlia. A prolific bloomer of blooms measuring as large as 10 to 12 inches. In especial demand in many places for cut flower purposes. The face of this mammoth flower is a glistening old gold color with the reverse of the petals a delicate old rose; since the petals curl, both colors show at the same time producing a warmth and richness in decorative effect. **50c each.**

BASHFUL GIANT F. D.—One of the largest Dahlias ever introduced: a great attractive exhibition flower. Color, apricot with golden suffusion and shading, with the flower slightly drooping. **40c each, 3 for \$1.00.**

BELVIDERE F. D. (Perry)—Charming pink with just a shade of salmon and gold. Plant medium to tall, branching well, blooming freely. Flowers full centered to end of season. Good foliage, leathery and insect resisting. One of the best in our gardens. **\$1.00 each.**

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

DECORATIVE DAHLIAS—Cont.

BLACK JACK as grown and sent in by one of our California friends.

BLACK BROOK F. D. (Winter)—Black Brook is a dwarf, growing about 18 inches high and fully covered with large rich, lilac crimson blooms. Splendid as a bedder, and can be used around a bed very much like geraniums. Very early and free. 25c each, 1 dozen, \$2.00.

BLACK JACK I. D.—Deepest dark maroon, appearing black at a distance. Bushes are very tall and filled with large, deep velvety blooms from early until late in the season. Best of its color. Won't burn, 75c each.

BOB PLEUSE I. D.—Darkest maroon boldly tipped white. Large flowers freely produced on dwarf bushes. Very popular and a good keeper. 75c each, 3 for \$2.00.

BONNIE BLUE F. D.—A very popular near blue Dahlia which blends nicely with almost any other color. It is a good grower, a free bloomer, and constitutes one of the best all-purpose Dahlias of medium size now grown in the garden. 25c each, 3 for 65c.

BONNIE BRAE F. D.—A real beauty; color, cream shaded to blushing pink. An exquisite color combination. It is grown and appreciated everywhere; one of the very largest and a free bloomer on long stems. 40c each, 3 for \$1.00.

BROCKTON BEAUTY F. D.—A huge flower of great depth and size whose color is a pinkish lavender. A profuse bloomer and wonderful keeper with fine stems. \$1.00 each.

BRUNHILDE F. D.—A very symmetrical chestnut color Decorative Dahlia. Vigorous grower, free bloomer. 30c each, 3 for 75c.

BUCKEYE BRIDE F. D. (Golden Rule Dahlia Farms)—Geranium pink, holding a large flower at an erect angle on a stem which is long and perfect, and which keeps well when cut. Foliage successfully resists insects and mildew. High and uniform vigor. A good root maker which keeps well. Roots, \$1.00 each.

BUCKEYE KING F. D. (Peck)—A 1934 Honor Roll introduction which was outstanding at Chicago and Cincinnati. Glowing gold color having all the good qualities of its mate, Buckeye Bride. Roots \$10.00 each, Plants \$5.00.

CALIFORNIA SUPERBA F. D. (Boston)—A very fine large pink flower, shaded to white with good stems on a good vigorous robust plant. 75c each, 3 for \$2.00.

CALVIN COOLIDGE, JR. F. D.—Rich rose pink, suffused salmon, with each petal edged distinctly gold. A large flower borne on long, straight stems. Vigorous grower, profuse bloomer, resembling Jersey Beauty in its habits. 50c each, 3 for \$1.35.

CAMEO I. D. (Fisher-Masson)—A large, luscious colored flower, shading half way between old rose and salmon, but brighter. Its color is unusually unique and pleasant. A 1932 Honor Roll Dahlia awarded special Certificate of Merit in the East \$7.50 each, Plants \$3.75.

CANARY CUP I. D. (Braker)—Color, a rich canary yellow with lighter reverse. Has large size and depth and graceful stems that hold the flower upright to facing. A free bloomer and good grower under all conditions. \$1.50 each, Plants, 75c.

CAPTAIN COSTE I. D. (Curran-Waite)—A daring big clear wax like empire yellow flower borne on long stout stems high above the foliage. A strong vigorous grower of the exhibition type with a most robust foliage for a yellow variety. \$3.00 each, Plants, \$1.50.

CARMENCITA I. D.—An extra fine vigorous, free flowering Dahlia on good stems, plant rather dwarf and bushy. A giant, yellow striped red bloom of most pleasing effect. 50c each, 3 for \$1.35.

CASPER G. WARE F. D. (Dahliadel)—The color is a pleasing shade of bright, silvery violet rose. Of medium height, but a vigorous grower, it is an ideal flower for bedding or hedge effect, having a mass of blooms throughout the season. By disbudding and crowning out, flowers may easily reach a size of 8 to 10 inches in diameter. 50c each, 3 for \$1.35.

CATHERINE WILCOX F. D.—Large, pearly white flowers tipped with pink. Very fine for garden or cut flowers. 40c each, 3 for \$1.00.

CHAMPAGNE F. D.—A Prize Winner. This great big wonderful California beauty is held perfectly erect on strong straight stems. Color, warm autumn shades, burnished copper to dull golden champagne and chamois. As a cut flower, it fits into the basket with any color. 40c each, 3 for \$1.00.

CHAMPOEG F. D. (Crites-Kemp)—A 1930 introduction. Yellow at center shading to salmon-pink with touch of amber-gold. An Honor Roll Dahlia, which showed good at Atlantic City, Redbank, New York and Asbury Park. A Pacific Coast origination. \$3.00 each, Plants \$1.50.

CHANG I. D. (Ballay)—A Dahlia whose colors are an oriental blending of burnished copper and gold, the flowers shading in the early season from reddish copper tone to gold coloring later. Gorgeous blooms of great depth and massive size on long stems throughout the season. \$1.00 each.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

DECORATIVE DAHLIAS—Cont.

CHARLES G. REED F. D. (Ballay)—Purple-red sometimes described as petunia-red and a lively shade not far from crimson. In our gardens it was crimson, with a brush of dark maroon almost one-third the way back on the petals. It is unusually large and upright, on good stems. Flowers were full centered and plenty of them. A good vigorous bush of medium height. It is one of the best red dahlias in our gardens. \$1.50 each, Plants, 75c.

CHARM F. D.—One of the most attractive Dahlias in cultivation. Color, a very striking combination of yellow and deep burnt orange; blooms of large size and deep full centers. 40c each, 3 for \$1.00.

CHEMAR'S 2406 I. D.—A very large early flowering Decorative, held facing on an 18-inch stiff stem well above the foliage. Strong, sturdy, grower. Color, a different red, nearly matching Ruby Fuchsia, and with a velvety sheen. As a cut flower, will last several days. Stands the sun well in the garden. \$1.00 each.

CHEMAR'S EUREKA F. D. (Chemar)—A large, white decorative with the center tinted lavender. This dahlia has very fine habits being a vigorous grower and producing a number of very large blossoms on each long stiff stem. \$1.00 each.

CHEMAR'S ORANGE BEAUTY F. D. (Chemar)—Brilliant orange shaded lighter toward center. Sport from Jersey Beauty. Exceedingly attractive with good habits of growth. 75c each.

CHEMAR'S PURITY F. D.—A most perfect white Decorative seedling from Jersey Beauty, which it resembles in everything but color. Flowers first opening show a slight trace of orange near center, which gradually changes to pure white at maturity. Scored high on trial grounds. \$1.00 each.

CHEMAR'S U. S. A. F. D.—This Dahlia is a full center Dahlia the color of U. S. A. The blooms of this Dahlia are very deep and large with an air-tight center on long, stiff stems holding the flowers erect. Color is apricot buff, suffused gold. Good for all purposes. 50c each.

CITY OF JACKSON F. D. (Blamer)—Picric yellow shading to coral-pink. A sturdy plant branching well, produces large flowers. An exhibition variety. \$3.00 each, Plants \$1.50.

CITY OF POUGHKEEPSIE F. D.—A dainty medium sized flower of violet-purple, each petal of which has a dainty white tip. Named for the City of Poughkeepsie by its Superintendent of Parks, who originated it. A very bushy little flower, fine for cutting. 75c each.

CITY OF TRENTON I. D. (Prentice-Dahliadel)—A large flower of splendid form grown on a strong, robust bush. This flower is a beautiful reddish apricot with rose suffusion and lustrous sheen. An exhibition variety on long, erect stems. Full centered flowers. Curled petals give a two-tone effect. 75c each.

CLAIR DE LUNE I. D. (Cordes)—Clear Sulphur Yellow. 8 to 9 inch flowers of very pleasing form without forcing. An early and profuse bloomer. Has performed well east and west. Winning prizes as largest flower in 1930 and Achievement Medal at Los Angeles in 1931. \$5.00 each, Plants, \$2.50.

COCHEAGAN F. D.—This is one of the largest Dahlias grown with blooms, often 12 inches in diameter of a deep shade of lemon yellow, which looks as well under electric light as in daylight. Long, strong stiff stems holding flower well above the foliage. We recommend this as one of the best yellows, although slightly drooping. 75c each.

COLOR SERGEANT I. D.—A very striking dahlia both in form and color which is a rich deep salmon bronze of one shade. Upright grower of excellent habits and perfect stem and a fine all around variety for exhibition or cutting. Prize winner at Camden, N. J. and Philadelphia shows. Roots, 75c.

COPPER KING F. D. (Marean)—Copper, yellow and light red. Sturdy grower under all conditions. Very large. 35c each, 3 for 90c.

COQUETTE I. D. (Fisher & Masson)—A thick, fluffy flower with curled and twisted petals, whose flower is a velvet, Musketeer red, blending with gold and shading to golden sunset at points. Reverse of petals gold. Flowers blooming freely stand a foot above the first pair of leaves out of dark green, leathery, insect proof foliage on rigid stems. Excellent. 75c each.

CORA BUTTERWORTH I. D. (Chapman)—Color, clear silvery yellow with long waved petals at the end of extra good stems. Winner of best undisseminated Decorative seedling prize in New York 1929 Show; and runner-up in the American Home Sweep Stakes Class. \$1.00 each.

CREOLE I. D. (Ballay)—Deep velvety maroon of very novel formation. The numerous petals are quite long and broad, pointed at the tips, with full centers. Good until very late with blooms freely produced on good stems. 75c each.

DAKOTA F. D.—A Judge Marean introduction producing very large exhibition flowers of good form. No Dahlias in our garden last year were more thoroughly autumn in coloring of deep, rich, coral red with coppery suffusion. A good supply enables us to offer this variety very cheap. 40c each, 3 for \$1.00.

DELICE F. D.—A charming, clear pink decorative used by florists for years as the standard to which all other pink shades are compared. Its good stems and long keeping qualities make it very adaptable as a cut flower. 35c each, 3 for 90c.

DERRILL W. HART I. D. (Broomall-Success)—Color, Capucine yellow shading to deep red. Blooms large, well formed with good centers, held erect on fine stems. Growth very strong. One of the best of the new Dahlias. \$1.00 each.

hibition table or in the vase. Of tall growing habit; flowers held well above the foliage on long, black, rigid stems. Foliage, dark green and leathery. 50c each.

GREEN PLANTS

If you want some of the new dahlias and they seem too expensive, buy plants at half price instead. Our Dahlia plants are propagated from tubers selected for their vitality and freedom from stunt or disease. All Dahlias shipped out will be made from base cuttings, started under moderate heat and when rooted are grown cool. They are hardened before shipped into strong, stocky plants and shipped in 2½" paper pots, in specially constructed containers, securely packed, and guaranteed to reach you in good growing condition in any part of the United States.

Plants furnished for any varieties whose roots are quoted \$1.50 or more each.

Green plants ready from April 15th to June 10th.

SPITZENBURG F. D. (Travis)—A 1934 Honor Roll Dahlia awarded First Prize as the best undissemminated Dahlia at the New York show. A flower of curious color, bright rose and rose-red blush, it met all of the qualifications necessary to win. \$10.00 each, Plants, \$5.00.

SPOTLIGHT I. D. (Cottage Grove)—A 1934 Honor Roll Dahlia awarded the American Home Achievement Medal at Seattle as the best undissemminated variety at Seattle. It has been rated by Derrill W. Hart as one of the best all-round exhibition and cut flower varieties displayed at the shows in 1934. Roots, \$10.00, Plants, \$5.00.

SPOTTSWOOD BEAUTY F. D. (Kemp)—Clear Chatenay pink with slight shading of yellow at base of petals. Seven to eight inch flowers of great depth are borne on long canelike stems high above the foliage. A remarkably strong growing plant attaining a height of seven to eight feet. Prolific bloomer and good root maker. 75c each.

SULTANA I. D. (Broomall)—Color is scarlet shading a gold. Plant grows vigorously under all conditions and the root produces fine large flowers on good stems. \$1.50 each, Plants, 75c.

SUPREME GLORY F. D. (Almy)—A huge golden yellow dahlia with reverse of petals faintly flushed

with red, which won a Certificate of Merit and placed on the Honor Roll in 1930. It is a strong plant whose stems are long and stiff. Very popular in the East. \$2.50 each, Plants \$1.25.

SUPREME MONARCH I. D. (Almy)—A rich deep brilliant red with reverse of pearly white whose petals curling slightly gives the appearance at a little distance of a giant red bloom covered with snowflakes. The size of the bloom and plant is immense, even larger than Elite Glory of which it is a seedling. An early and profuse bloomer on stiff stems two to three feet long. \$4.00 each, Plants \$2.00.

SYLVIA F. D.—A good old pink and white; good cut flower and still retains many friends. Good stems, good keeper; easy to grow under all conditions. 25c each; 3 for 65c.

TANG I. D. (Downs)—Bright tawny orange flame flower whose long petals rolling and twisting showing a golden buff reverse gives the flower a two toned effect. Flowers are deep, full, high centered on strong stems. Plant is rugged and the dark green foliage adds to the attractiveness of the flowers. \$2.50 each, Plants \$1.25.

THE COMMODORE I. D. (Scott-Kemp)—A very large and spectacular, lemon yellow Dahlia overlaid with a golden sheen. Many blooms attain 14 inches across. The giant blooms are of good depth and are held high above the foliage by long stiff stems on a wide-spreading, medium height plant of sturdy growth. A Certificate of Merit Dahlia winning prizes at Baltimore and Red Bank. \$2.00 each, Plants \$1.00.

THE GRIZZLY I. D.—One of the finest. Color, dark velvety crimson and maroon. An immense flower that blooms freely on good stems should be in every collection. 50c each, 3 for \$1.35.

THE LEMONADE F. D.—A clear lemon yellow, blooms large to very large, carried on stiff upright stems. Plant has good habit of growth and flower is excellent keeper when cut. 50c each.

THE TELEGRAM I. D.—Orange yellow tipped white. Grows large on medium stems and a good bloomer. Very attractive. 50c each.

THE WORLD F. D. (Dahliadel)—An unusually rich deep rosy magenta overlaid scarlet with silver shading on edges of petals. A rich and beautiful combination. Perfect full centers. Stems are strong and erect, foliage leathery and immune to insect injury. 50c each.

THOMAS A. EDISON F. D. (Dahliadel)—A royal purple, named for the famous electrical wizard with his approval. Staghorn petal formation and insect resisting foliage, cane stiff stems, thrifty growing habits, it has been exceedingly popular since its introduction in 1930. A prize winner, it gives a good account of itself under all growing conditions and is now priced where all can afford it. \$1.00 each.

TOMMY ATKINS I. D.—A beautiful glowing scarlet Dahlia of large size and fine form held well above the plants on long straight stems. The plants are vigorous growers and prolific bloomers. This variety calls forth admiration everywhere. 50c each.

TREASURE ISLAND F. D. (Dahliadel)—Bright apricot with gold and rose suffusions. Grows well and produces a wealth of fine exhibition blooms. It is a free, even bloomer and a prize winner. 75c each.

TRENTONIAN F. D.—Giant blooms on extra fine stems. A plant of medium height bushing heavily and growing vigorously. Very heavy foliage. Color is a blending of reddish bronze, old gold and amber copper, and is best described as the color of "Indian Skin." A fine California autumn coloring. 50c each, 3 for \$1.35.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

DECORATIVE DAHLIAS—Cont.

VALESKA I. D. (Ballay)—Deep lilac, unlike any other Dahlia, immense blooms of a deep roselike formation with petals slightly curled; first class stem; luxuriant growth; prolific bloom production. 75c each.

VENUS F. D. (Marean)—Cream white tinted lavender, medium size, good stem, dwarf growth, free and profuse bloomer from early season until late with full tight centers throughout the season. 35c each, 3 for 90c.

W. J. ERWIN I. D.—One of the best lavender purple dahlias that we have ever seen. It has size, good medium stems. Blooms freely. 50c each.

WANDA MILLER I. D.—A new Dahlia of the same color as Our Country; deep purple with white tips never sporting to solid color. Immense flowers are held erect on long, stiff stems. Early and free bloomer. 75c each.

WALDHEIM SUNSHINE I. D. (Peacock)—A giant, graceful Dahlia whose color is a true, deep yellow that shows up yellow under artificial light. Good bushy growth; strong and erect stems. A sturdy grower and a free bloomer with 10-inch blooms keeping full centers to the end of the season. A high score and prize winning Dahlia, with a Certificate of Merit. 75c each.

WASHINGTON GIANT I. D. (Lee)—A 1934 Honor Roll Dahlia winning the American Home Achievement Medal at Portland where it was the sensation. Unusual in form and color which is a lavender streaked silver with silver petals throughout. Flower is large on extra strong stems and plant has good growing habit. \$10.00 each, Plants \$5.00.

WATCHUNG SUNRISE F. D.—Large globular shaped flowers with petals extending back to stem when in full bloom. The background of color is amber with here and there a faint blush of salmon, and each petal, when it unfolds, has a definite band of salmon color. It has perfect stems, good foliage and is outstanding. 75c each.

WATCHUNG WONDER I. D. (J. Smith)—Royal Red with a touch of Gold at center of flower, and now and then a gold petal to enhance its beauty. One of the largest dahlias. A sensation in the Eastern shows. \$1.50 each, Plants 75c.

WESTER GIANT I. D.—A very large Dahlia of brilliant orange with tints of gold and salmon rose reverse. Long, erect stems hold the blooms up well. Does well under most conditions. \$1.50 each, Plants 75c.

WHITE EMPRESS I. D. (Alling)—Ideal white, either for garden or exhibition purpose in the show room. A prize winner for the best keeper in the Shows. A free bloomer, uniform and large perfect flowers on long erect stems with excellent substance. 75c each.

WHITE WONDER I. D. (Black-Kemp)—A large white Dahlia producing frequently flowers 12 inches in diameter and 8 to 9 inches in depth. Stiff stems hold blooms well above the foliage and in profusion throughout season. Plants, 6 feet tall,

foliage very thick and leathery. \$10.00 each. Plants \$5.00.

WILLIAM AGNEW F. D.—A true old scarlet variety growing well under any condition. It is the parent of Oregon Beauty and Adaline Winter and keeps well apace with its brilliant daughters. A good cut flower as well as a good garden variety, 35c each, 3 for 90c.

WILLIAM H. HOGAN F. D. (Success)—Color, garnet red with white tips running down the center of the petals; every petal comes true to color. A prize winner and Roll of Honor Dahlia, and one of the best fancy Dahlias on the market. The habits of the plant are perfect, and the very large blooms are carried on very long, rigid stems. 75c each.

WM. J. RATHGEBER I. D. (Parella)—A 1932 Honor Roll, red Dahlia under electric lights but a definite rose scarlet in daylight. A seedling of Bagdad, it is a fine, upright grower. Named in honor of the Secretary of the American Dahlia Society, who died in 1932. Very striking. \$7.50 each. Plants, \$3.75.

W. H. T. F. D. (McCarroll)—Rich old rose on begonia rose with mauve shades on the reverse of petals. It is a tall robust grower producing big flowers on strong stems. Petals are thick and of great substance opening back to the stem making a very deep flower. \$1.00 each.

WIZARD OF OZ I. D.—A veritable giant of glowing amber pink or soft salmon shades. The immense blossom is held well above the foliage on a fine upright stem. In some localities it has a slight tendency toward cactus type. Valuable for exhibition as well as a cut flower. 75c each, 3 for \$2.00.

WORLD'S BEST WHITE F. D.—A splendid pure white of largest size on stiff stems. A strong vigorous grower. 75c each, 3 for \$2.00.

YANKEE KING I. D. (Sarah Wakeman Woods)—Strawberry pink, centers spinel red with rose red reverse. Blooms very large held on a tall vigorous bush by extra long fine stems. Scored at Storrs for A. D. S. Field Day. \$1.50 each, Plants 75c.

YELLOW BEAUTY F. D. (Waite)—A comparatively new yellow decorative, having some of the characteristics of Jersey Beauty. A Commercial Dahlia, it can be grown to exhibition size. Blooms are up to 8 and 9 inches across and 4 to 5 inches deep. Its erect position on a slender stem makes it very desirable for vase work. 75c each.

YELLOW COLOSSE F. D.—A large deep golden yellow, free flowering Dahlia with good stems and good habit of growth; much used for cut flowers. 40c each, 3 for \$1.00.

ZEUS I. D.—Color, rich glowing red infinitesimally tipped gold. Large flower of fine form borne on a stiff stem. Low grower and constant bloomer with tendency to open center in late season. \$1.00 each.

* * * * "Shipment of Dahlias came through in fine shape, and I also received the extra Priscilla. Thanks for the complimentary Nifty."

* * * * * I should be glad to have a 1934 Catalog when it is ready, also your wholesale list, if you have one. I do quite a local business, in fact have more orders* now than I can fill.

*We fill orders for scores of small growers. K. D. G.

Canivete, Santa Catharina, Brazil, S. A., April 22, 1933

Regarding a copy of my letter to you for seed published on the inside of back cover of your 1933 catalog and the notation—"Kendall Dahlias will bloom next May in So. Brazil, S. A."—You are all wrong. Dahlias bloom in So. Brazil from January to May as frost comes here in early May.

Unfortunately Kendal Dahlias did not bloom in my garden for they must have been stolen* from the mail during a revolution here during the time of their arrival.

*We replaced the Dahlia seed lost in the revolution. K. D. G.

DO YOU WANT OUR 1935 CATALOG?

HELP! HELP! HELP! If you want our 1935 catalog and have not ordered from us during the past two years, will you please write us a card or letter, telling us that you want it sent to you? We are Scotch and catalogs cost money even in the very large quantities in which we have them printed. We have a mailing list of 25,000 names and on account of death, removal, and other changes, our list requires constant revision to keep it up to date. If you like it and want it, don't forget to write. THANKS.

"GOOD WILL SPECIAL"

1934 CUSTOMERS TO GET FREE DAHLIAS IN 1935

All our retail customers in 1932 were given "Good Will Special" coupons entitling them to a 10% cash discount on all orders for Dahlias from our 1933 catalog. It proved so popular that we decided to continue the coupon another year and all customers who purchased Dahlias from our 1933 catalog will receive a 10% cash discount on their 1934 orders. If you purchase an order from us in 1934 you will be entitled to a 10% cash discount on your 1935 order in addition to our New Deal Offer. We take this method of showing our appreciation. We want you to feel free to use it.

BOUQUETS

Herewith are extracts from a few of hundreds of letters received from our customers. They tell their own story. Names of the writers may be had upon request:

Bartelso, Ills., Nov. 12, 1933

* * * * * The Dahlias I received from you last spring sure did wonderful in spite the very dry summer we had. Fort Monmouth, Kendal Purple Giant, and Black Jack all bloomed wonderfully. Black Jack got to be 10 feet tall, and it was loaded with buds, when they froze the other night, November 7. Albert Vestal and Barbara Redfern did not get to bloom, and Mrs. Ethel F. T. Smith *never grew at all. Fort Monmouth had wonderful flowers. Please send me your 1934 Catalogue. * * * I intend to order more next spring.

* We are replacing Mrs. Ethel F. T. Smith. K. D. G.

Toledo, Ohio, Sept. 18, 1933

* * * * * "Dahlias came fine and both Mr. _____ and I are very pleased at our results. Of course, this was a hard year for Dahlias because of the intense heat."

S. Connellsville, Pa., Nov. 9, 1933

"I am writing to you about our Dahlia Bulbs I bought from you. The one that did not come up for us was Mae Grefe* The others did well for us. The one Gen. Butler* was a beautiful flower but of decorative type and I was not sure but thought it was Cactus type, but it was one of our nicest blooms and about 14 inches across. It was about the shade of Mrs. I. D. Ve. Warner.

* We are replacing the Mae Grefe. General Butler is a dark lilac Dahlia and around 6 to 7 inches across. Unless it "sported" we must have sent you something in error though we don't know what. K. D. G.

Burdal, Ga., Dec. 28, 1933

"Please send me your Catalogue * * * * * as soon as published. My address is changed from Austell, Ga., to the above. Your Dahlia roots have given me and those to whom I retailed some of them year before last entire satisfaction."

SPRINGFIELD S. C.—A beautiful blending of salmon-pink and amber comparable to Countess of Lonsdale of whom it is a rival. A good, free flowering variety with good stems, valuable for cut flower and garden purposes, being a good keeper. We like it very much but would not like to say it is better than Countess of Lonsdale. 35c each, 3 for 90c.

STANDARD BEARER C.—Rich fiery scarlet. An old favorite, producing flowers prolifically on plants which branch well. Good cut flower variety and a good keeper. One of the very best. 35c each, 3 for 90c.

STAR OF BETHLEHEM S. C. (Nolet)—Large flowers of pure white, fine pointed petals with tight center, resembling a real star, on stem 18 to 24 inches in length. Plants are very free blooming, growing about 5 ft. in height and should be disbudded. It was the best white in our garden in 1930 and was a consistent prize winner in the East. \$1.50 each, Plants 75c.

STARLIGHT S. C. (Boston)—Color is pure unshaded gold combining with everything in the average house decorations. Flowers are large and bushes are fairly tall, robust, and branching. \$1.00 each.

SUN MAID S. C. (Dahliadel)—A vigorous orange red and gold Dahlia of unusual size and perfect form, giving you an abundance of blooms on long stiff stems during the entire season. \$1.00 each.

SUNSET GLOW C. (Peacock)—Color, scarlet at the base and at the tips similar to Red Cross. Very free flowering on good stems. 35c each, 3 for 90c.

SUNNY SOUTH S. C.—Bright clear yellow without any shadings. Flowers are enormous in size, most pleasing in form, very full and deep in the center. The plants are low growing and sturdy in habit, being two and a half to three feet. Flowers are held erect. 50c each.

TALISMAN C.—A gorgeous tense blood red flower with maroon shades. The long petal uncovering slightly shows the reverse of the tips and gives the flower a more or less buff tipped appearance. A satisfactory dahlia. 50c each.

THE EAGLE C.—Color pure silver yellow. Large exhibition Dahlia of attractive formation. Petals long and narrow, making an attractive chrysanthemum-like flower. A free bloomer and a good keeper. 40c each, 3 for \$1.00.

THE PERFECT WHITE S. C. (Broomall)—Color is just what its name implies. Flower very artistic in formation and satisfactory from every point of view. \$1.00 each.

THE SUN S. C. (Dudley-Ruschmore)—A large sunburst flower of bright, glowing sunlight yellow. Withstands dry weather and pests. Form similar to Edna Ferber. A 1932 Honor Roll Dahlia. \$7.50 each, Plants \$3.75.

KENDAL FRAGRANCE. P. (Kendal)—(See page 3.)

KENDAL GOLD P. (Kendal)—(See page 3.)

MME. AUBREY P.—A beautiful rich, deep mauve pink; outer petals are broad and flat, the center petals are quilled and rolled toward the center. A distinct and desirable novelty in true peony form, attracted much attention in our gardens last year. 40c each, 3 for \$1.00.

MME. COISSARD (Dup)—Brilliant French purple or carmine crimson, freely marked, shaded and suffused with white; a most artistic, graceful Dahlia. Its flowers are largely composed of incurving shell like petals. A good grower and a free bloomer. 35c each, 3 for 90c.

NIFTY (Dup) (Kendal)—American Beauty red with silver shadings, giving it a two-tone effect. Plant is of medium height, standing very erect with 15 to 18 inch laterals covered with beautiful bloom until frost. Vigorous and thrifty. 25c each, 3 for 65c.

POINSETTA (Dup) (Kendal)—One of our seedlings which grows easily 8 feet tall, branches well with long laterals, producing a number of 6 and 7 inch flowers whose color is a striking and spectacular scarlet with gold blushes. A free, early, and continuous bloomer. 50c each.

POLARIS P.—A tall growing white, producing many flowers on a vigorous growing plant of 4 to 5 feet tall with good stiff stems. A good cut flower. 35c each.

PRISCILLA P.—An American Beauty red, suffused with purple and silver shadings, giving it a triple tone effect. Plant is semi-dwarf, branches well and is a mass of bloom throughout the season. Its height and beautiful foliage makes it a good hedge. 30c each, 3 for 75c.

PRIDE OF WINTERHAVEN P. (Winter)—Coral pink, old gold and yellow. Free and early bloomer. While making a nice cut flower it is exceedingly showy in the garden with its bright autumn colors. 35c each, 3 for 90c, 12 for \$2.50.

ROSALIE STYLES P. (Peacock)—A bright Tyrian pink, tipped lighter reflex pink. Beautiful form, immense size, stiff stems. A strong, vigorous, sturdy plant, a free and continuous bloomer, strong grower, medium height, its branches and produces its giant flowers freely on long, cane like stems, making it valuable as a superb cut flower variety. 40c each, 3 for \$1.00.

SAN JOSE P. (Ballay)—Purplish crimson or bright reddish cerise, a spectacular flower. Many of its blooms are a foot across. Broad petals combined with the most numerous small circling petals around the pollinated full center complete a flower of the most perfect type of peony Dahlia. 75c each, 3 for \$2.00.

THE U. S. A. P.—A lovely flower of vivid orange on fair stems of good formation, often being hybrid in type. 50c each, 3 for \$1.35.

Ball Dahlias

BALL DAHLIAS. Fully double flowers, ball shape or slightly flattened, floral rays in spiral arrangement, blunt or rounded at tips and quilled or with markedly involute margins, two inches or more in diameter. Sometimes called "Show" Dahlias.

Abbreviated "B"

Quotations of all Ball Roots are for strong field grown divisions, each with one or more good eyes, guaranteed to grow, and each Root labeled.

A. D. LIVONI—Soft, clear pink; good vigorous plant, good stems. One of our oldest Dahlias and still a great favorite. 25c each, 3 for 65c.

AMERICAN BEAUTY—One of the very best of this type, a brilliant crimson red with French purple suffusions, a rich glowing color, 30c each, 3 for 75c.

CUBAN GIANT—Very large ball shaped flowers of a bright maroon. Tall vigorous plants, bushing well; flowers held erect on long, straight, stiff stems. A favorite in our garden, 30c each, 3 for 75c.

DEELIGHTED B.—A novelty of the ball type producing medium sized white flowers with an

oblong opening at the center. Petals making the opening produce a miniature teethlike effect as indicated by a cartoonist showing one of our popular former presidents saying the word "delighted." Price, 25c each.

DREER'S PINK B.—A plant growing about 3 feet high, bushing well, producing a profusion of honey-coned petaled pink flowers. A popular cut flower variety. 25c each.

DREER'S WHITE—A pure glistening white; large ball shaped flowers with closely quilled petals. These in a cut flower bouquet add lustre to all the colors of the other flowers and make its own white seem whiter. Easily grown; free and early flowering. 25c each, 3 for 65c.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

BALL DAHLIAS—Cont.

DREER'S YELLOW—One of the best yellow show Dahlias. A good grower, early and profuse bloomer. In general form and make up it resembles Dreer's white, but larger. 30c each, 3 for 75c.

POMPOM DAHLIAS. Having same characteristics as Ball Dahlias but less than two inches in diameter.

Abbreviated "POM"

Quotations on all Pompom Roots are for strong field grown divisions, each with one or more good eyes, guaranteed to grow, and each Root labeled.

AIMEE—A very small pompom Dahlia of coral pink. Good stems and a free bloomer. 25c each, 3 for 65c.

AMBER QUEEN—A rich amber shaded apricot. A distinct, attractive variety and one of the most popular pompoms grown. Its beautiful color, perfect form and long, straight stems make it very desirable. 25c each, 3 for 65c.

AMBER RED TIP (Kendal)—Name describes the color of this dainty little free flowering dahlia. Have sold hundreds in our gardens where it is quite popular. 25c each, 3 for 65c.

BELLE OF SPRINGFIELD—Color, bright red, very small and dainty. Greatly admired. 30c each, 3 for 75c.

BIT O' LILAC Pom (Kendal)—A sturdy growing plant producing a profusion of lilac blooms about 1¼ inches in diameter. Very free flowering. 25c each.

BRONZE BEAUTY—A small well-formed plant of rich golden bronze. Blooms freely on a good plant. 25c each, 3 for 65c.

CATHERINE—A well formed primrose yellow; is a sturdy grower, sending out its branches at regular intervals to form clusters of beautiful flowers especially adapted to table decoration. At one stage in its growth it resembles a miniature Chinese pagoda. 25c each, 3 for 65c.

DAISY—Color, amber and salmon. A neat and constant variety blooming profusely on compact plants. 30c each, 3 for 75c.

DARKNESS—Color, very dark maroon, almost black. A model flower in every respect and is especially desirable to mix with lighter colors; plants of good habit with blooms erect on long bare stems. 35c each, 3 for \$1.00.

DARKSOME—A popular dark-red or maroon flower. Blooming freely on good plants. 35c each, 3 for 90c.

DEE DEE—Lilac lavender, very dainty and small. Early and free blooming. 25c each, 3 for 65c.

DR. HIRSCHBRUN—Beautiful, pleasing, soft lilac-rose. Blooming freely, 35c each, 3 for 90c.

GOLDEN QUEEN—A very good yellow pompom exceedingly tight and compact. The flower is borne on good stems and is an exceptionally free bloomer. A little larger than the average pompom. Color, the purest golden yellow imaginable. Very popular. 25c each, 3 for 65c.

GRETCHEN HEINE—Rose tinted white, each petal tipped crimson-carmine. 25c each, 3 for 65c.

JESSICA—Color, amber yellow, edged and tipped with red. One of the most popular of this class, and about the freest bloomer. Very attractive. 25c each, 3 for 65c.

JOHNNIE—A deep dark-red. Finest of all and none more perfect in form. A favorite with men for button-hole bouquets. 25c each, 3 for 65c.

KENDAL CREAM PUFF (Kendal)—A rich creamy yellow fluffy flower aptly describes it and suggested its name. A vigorous medium sized plant producing flowers on good stems and keeps well when cut. You'll like it. 30c each, 3 for 75c.

KLEINE DOMITEA—Pretty orange buff dahlia. Profuse bloomer on good stems makes it a favorite for table decorations. 25c each, 3 for 65c.

LITTLE BEAUTY—A small extra fine pink ball variety, fine for cutting. A model flower with closely quilled petals. 25c each, 3 for 65c.

LITTLE BOBBY—A very attractive, free and continuous blooming pompom of rich plum color. With others, it assists in bringing out autumn colors. 25c each, 3 for 65c.

LITTLE DOROTHY Pom—Color is a creamy yellow spotted white, hardly any two blooms alike. A good vigorous grower producing very small dainty flowers with long stems making it fine for vase work. 25c each.

LITTLE HERMAN—Deep maroon tipped white. A very showy little flower. 25c each, 3 for 65c.

LITTLE JEWEL—A clear peach blossom, pink color, decorative with flowers averaging from one and one-half to two inches on good plants which send out flowers in profusion. Probably the best and prettiest pompom on the market today. 35c each, 3 for 90c.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

POMPOM DAHLIAS—Cont.

MADELINE—Pale primrose edged with rosy purple, sometimes white or cream with pink tips, the leading pompom of this color. Long stems and a very fine cut flower variety. **25c** each, 3 for **65c**.

NERISSA—A perfect model pompom of a most beautiful shade of pink that appeals to everyone. Blooms very freely on good stems, always in demand. **35c** each, 3 for **90c**.

SAN TOY—White tipped with carmine, producing its beautiful bloom profusely on a large plant. Is probably the tallest growing pom. Very beautiful and very desirable. **25c** each, 3 for **65c**.

SNOWCLAD—A pure white pompom Dahlia with petals of exquisite texture; free bloomer, good keeper. **25c** each, 3 for **65c**.

SUNBEAM—A brilliant crimson scarlet; free bloomer excellent for cutting. Very showy. **25c** each, 3 for **65c**.

SUNGLOW (Kendal)—A golden sunshine glow on a well formed flower of about one inch. Plant grows about 18 to 24 inches high and is a mass of

blooms. Brilliant as the sun's glow. **30c** each, 3 for **75c**.

SUNSET—Orange scalet on a vigorous growing bush of medium height, sending out good long stems covered with blooms. A rich orange ye'low with bronzy orange centers. About one inch in diameter, very showy on good stems. **25c** each, 3 for **65c**.

TOM THUMB—Color, garnet red. One of the finest perfectly formed dahlias in the smallest class. **30c** each, 3 for **75c**.

YELLOW GEM—Very perfect yellow little flower blooming early and freely on good stems. **25c** each, 3 for **65c**.

One each of the above named pompoms, 32 in all **\$6.50**.

We have several other pompoms which were originated in our own gardens, but which we have not yet named, in many colors. We will be glad to send a collection of one dozen of these assorted colors for \$2.00.

Single Dahlias

SINGLE DAHLIAS. Open-centered flowers with only one row of ray florets regardless of form or number of florets.

Abbreviated "S"

Quotations of all Single Dahlia Roots for strong field grown divisions, each with one or more good eyes, guaranteed to grow, each Root labelled.

The follownig Single Dahlias are all vigorous plants of good stems, and plants and flowers are of good substance. While not as showy as some of the more double varieties, they attract a great deal of attention, and are to be found in many gardens. They seed easily, and when placed near double Dahlias their seed often produces fine, large double flowers.

CREAM CENTURY (Winter)—Large cream colored. **25c** each, 3 for **65c**.

PAISLEY (Kendal)—(See page 3.)

POINSETTA CENTURY (Kendal)—Large scarlet petals, pointed like a Poinsetta, gives this Dahlia its name. It attains a size of 6 to 7 inches in diameter, blooms freely on a good sized disease and insect resisting plant. **35c** each, 3 for **90c**.

PRAXATELLA (Wintre)—Maroon and white. **25c** each, 3 for **65c**.

ROMANTIC (Winter)—Brililant scarlet with golden disc. Very large. **25c** each, 3 for **65c**.

SCARLET CENTURY—A very good large single, scarlet Dahlia, similar in color to Romantic, but

not so good. **25c** each, 3 for **65c**.

SNOWFLAKE—Pure white, blooming freely on good stems, on a sturdy plant. **25c** each, 3 for **65c**.

SUNSET CENTURY—Color, golden yellow shading crimson. Tall grower and free bloomer. **25c** each, 3 for **65c**.

TANGO CENTURY—Color, orange and yellow on a tall thrifty plant. Good bloomer. **30c** each, 3 for **75c**.

TRYMORE S.—This is the name we have given to good seedlings in assorted colors which we do not intend to name or produce. 3 for **50c**.

ONE ROOT, each, of the above 9 varieties, **\$1.75**

Collarette Dahlias

COLLARETTE DAHLIAS. Open centered flowers with only one row of ray florets with the addition of one or more rows of petaloids, usually of a different color, forming a collar around the disc.

Abbreviated "Coll"

ACHIEVEMENT—Velvety maroon with white collar. **25c** each, 3 for **65c**.

MME. GYGAX—Bright cochineal red, primrose yellow collar. **30c** each, 3 for **75c**.

MAURICE REVOIRE—Crimson with white collar, a French Collarette. **25c** each, 3 for **65c**.

NEGRO—A red and white Collarette with blue roots. **25c** each, 3 for **65c**.

ROSETTE—Giant size, velvety cerise, suffused white with white collar. **25c** each, 3 for **65c**.

TIGER (Wintre)—A very fine Collarette of bright scarlet with yellow golden collar. Free flowering and longest stems. Outstanding in all its habits. **25c** each, 3 for **65c**.

ONE, EACH, of the six Collarettes named above, **\$1.00**.

Anemone Dahlias

ANEMOME DAHLIAS. Flowers with one row of large floral rays, like the singles, but with each disc floret producing small, tubular petals.

Abbreviated "Ane"

ADA FINCH (Wouters)—Creamy white flower with small quilled petals, same color over entire center. Fine for bedding and border. Free, early and a profuse bloomer. **50c** each.

GELRIA—Lemon Chrome petals at base shading to amaranth pink at center and mallow purple at tips with lemon shading to chrome, cushion splashed old-rose. **50c** each.

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

Tritoma Pfitzerii

(Red Hot Poker, Flame Flower or Torch Lily.)

Most handsome and showy plants for the border or for bedding, surpassing all other in brilliancy of color, which is a rich orange-scarlet. Blooms continuously from August to October. The flower spikes 4" to 6" long are made up of a multitude of small tubular flowerettes and are borne on strong tall stems often 3 to 4 feet high. They are fully equal to the Gladiolus as a cut flower, lasting a week or more after cutting.

Tritoma should be planted in rows or massed in oval beds 9" to 12" apart. Planted straight or staggered in the row they make a wonderful border. Set out without cramping roots in furrow so that top or crown of roots are covered $\frac{1}{2}$ " to 1" on level. When their rush like leaves show two or three inches above ground cultivate and repeat cultivation every week or ten days until they start to bloom. After that stir the ground lightly every two or three weeks or after each hard rain.

Tritoma is not classed as a hardy plant, but if mulched or covered with Dahlia tops, potato, tomato or bean vines or coarse manure, they will survive and bloom earlier than if planted in the spring. Do not use light mulch such as leaves or grass cuttings. Spring planting should be done in April and early May. If you plant in the fall remove mulch in April. Tritoma will stand a severe frost and freeze spring and fall. If dug in the fall, cut off tops 2" or 3" above crown. Place in box, cover over with sand and keep in coldest part of basement. You should dig each 2nd year and separate the divisions which increases about three fold each year.

Roots, 2 to 4 eyes each, 30c each, 5 for \$1.00.
1 Dozen for \$2.00.

"Good Will Special" (Page 19) Includes Orders for Tritoma Peonies and Cannas

In 1932 we began to grow Peonies to meet a rapidly growing demand from our customers for them. In 1933 we grew our own Cannas for the same reason. We will continue to grow these in a limited way for a number of the better standard varieties, keeping the list up to date. But Dahlias are our specialty and our best effort goes to them. However we give the same guarantee to our Peonies and Cannas as to name and variety that we do to our Dahlias. They must be right. Peonies would give you better satisfaction if ordered and planted in September or October.

PEONY

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

Peonies

Among the hardy perennials in the temperate zone, Peonies are without doubt the national favorite. No other perennial is as beautiful, as easily grown or as hardy. They are beautiful as cut flowers and are fragrant. Once planted they will last a life time and increase in beauty each year. Plant the roots so that the crowns (eyes) are well covered with two inches of soil, no more. Our Peony roots will have three to five eyes on well balanced divisions and will be sent postpaid anywhere in United States.

AVALANCHE (Crousse) 8.7—Midseason, double type, pure snow white with carmine flakes. Very large compact globular rose type. Very satisfactory. **30c** each.

FELIX CROUSSE (Crousse) 8.4—Late midseason, double type, brilliant crimson. Large flowers of even tone and silky luster. Medium height, very floriferous. One of the best and most popular of reds for planting in the middle and southern states for cut flowers, but does well everywhere. **30c** each.

FESTIVA MAXIMA (Meilleux) 9.3—Early, double type, white with prominent crimson flakes on a few center petals. Very large, tall flower. The best known and most popular white and excellent for cut flowers. **30c** each.

KARL ROSEFIELD (Rosefield) 8.8—Midseason, double type, velvety crimson. Very large globular semi-rose type. A strong, tall and free bloomer and a favorite everywhere. **40c** each.

MONS. JULES ELIE (Crousse) 9.2—Early, double type, lilac-pink covered with a silvery sheen. Large compact, bomb type. A favorite with many. **40c** each.

MME. JULES DESSERT (Dessert) 9.4—Midseason, double type, pure white with delicate pink blush, splashed with carmine. Its gorgeous flowering qualities make it one of the finest of all Peonies. **75c** each. Collection of 6 above postpaid, **\$2.00**.

Collection of 3, one each red, pink and white, our selection, **55c** postpaid.

Cannas

Cannas are the most economical, the tallest and most effective of any of the summer bedding plants. If started early they bloom from early summer till frost and in a sunny location succeed in any kind of soil anywhere in the United States. They may be massed for solid color or they may be planted mixed for striking effect. In addition to their attractive bloom, their rich colorful chocolate, red, green and bronze foliage puts them in a class by themselves. Early shipment of Canna roots are sent out dormant, but as the season advances we send out started plants, so that you have earlier flowers. You can have no better roots than we send out in this list which is quoted at a very low price and postpaid.

THE CANNA

with immense heads of orchid-like, velvety orange-scarlet flowers, rose-tinted and margined at the base. The combination of leaf and blossoms is incomparably beautiful.

KING MIDAS—4 ft. Large flowers of glittering gamboge-yellow, with green foliage. An outstanding variety, making glorious trusses on stems as straight as an arrow.

STATUE OF LIBERTY—6 to 7 ft. Flowers a blazing flame-red. The foliage is of a rich luxuriant bronzy shade with larger leaves than any other Canna.

THE PRESIDENT—4 ft. Color rich glowing scarlet whose immense firm flowers are produced on strong erect stems well above the large, rich green foliage. A superior red variety both in quality and quantity of bloom.

WINTZER'S COLOSSAL — One of the largest flowering of all Cannas, producing immense trusses of striking, vivid scarlet flowers that retain their brilliancy throughout the season. Very popular.

YELLOW KING HUMBERT—4 ft. Golden yellow flowers blotched with red, with habits of growth and flowering like King Humbert and with a green foliage. Very popular.

One each of above Cannas, 6 in all, **40c** postpaid. Two each, 12 in all, **65c**.

No order for less than six Cannas accepted.

KING HUMBERT—4 ft. The grandest canna ever offered. The large heart shaped leaves are purple-madder brown over bronze. The plants are crowned

Helpful Hints in Cultivating of Dahlias

KENDAL DAHLIA GARDENS, INC.

SANDUSKY, OHIO

Dahlias are easily grown, requiring no special soil, treatment or skill to bring them to perfection.

Dahlias are really an Autumn flower and should not be planted too early. For the best fall flowers they should be planted the first to the 15th of June. This is true for the southern and south central states, as well as for the northern states.

They are remarkably free from disease and have few special enemies.

Plant in sunny location, although they will do nicely in partial shade. They grow taller when shaded.

Prepare the soil by deep spading; if soil is sandy a shovel full of well rotted manure may be incorporated with it; if otherwise use little, if any, fertilizer before plants begin to bud. Add sand or coal ashes to heavy soil or clay mixing it in thoroughly.

Drive a stake at edge of each hole to support the plant. Lay root down flat with eye upward and next to stake, about six inches deep, and cover two inches with pulverized soil, gradually filling to level as plant progresses. Plant two to three feet apart each way. With exhibition varieties a foot farther apart will be better. When plant gets tall tie it to a stake with coarse cord or strips of cloth.

As soon as plants are large enough, pinch out the top bud just above the third or fourth set of leaves. This causes the plant to branch, so that it will not grow so tall. If you do this, stakes will not be necessary.

Cultivate well until buds appear, then stop all cultivation except light raking after each rain or watering, just enough to break the crust of ground; only be sure to do this. Clay soil requires more cultivation.

When buds appear spread manure or some good potato fertilizer around the plant and mix slightly in the soil, but do not place the fertilizer against the plant or roots, keeping it 6 to 12 inches away. The roots will hunt and find it.

In case a perfectly good root with a good eye refuses to sprout dig up the root and soak for 24 hours in fresh water; this usually will cause it to sprout in a reasonable time after replanting. If it then refuses, return it to the shipper.

Unless weather is very dry and hot, do not begin watering until buds appear, then soak the ground thoroughly (not sprinkle) about once a week or ten days. Cut off all faded flowers with as much of the stalk as you can.

For extra large blooms disbud by pinching off all buds in a cluster except the strongest one. The more laterals or "Suckers" you take off the longer the stems and the fewer the flowers and larger.

For cut flowers pick in the evening or early morning if possible; burn the ends of stems in any flame, or dip in boiling water for 10 seconds; after either treatment place in cold water and put in cool place free from draft until wanted.

When frosted down in Autumn, cut stalks off at the ground and dig carefully so as not to break neck of roots, for the eyes for next season's growth are only found where the root joins the stalk. Place the dahlia in box and cover with sand and newspaper, so that the air does not reach the bulbs and dry them out, then place in coolest part of the cellar. Protect from freezing, too much moisture or too much heat. Forty to fifty degrees is a good temperature.

In the spring, when the eyes show plainly, divide the roots, being careful that each root has an eye. Then cover them up again and keep dry until planted. Do not plant the whole clump in one hill, as it will produce too many stalks and your plant is better with not more than one or two good eyes, which will produce better plants and flowers than if you plant a whole clump which produces ten to twelve stalks, none of which will mature or bloom satisfactorily on account of lack of air, circulation and food. If you are growing dahlias satisfactorily continue your present methods. If not follow the above instructions and your dahlias should do well for you.

A more complete printed instruction sheet on "How to Grow Dahlias" will be enclosed with each order of dahlias sent out or a copy of these instructions may be had upon request.

KENDAL DAHLIAS GROW ANYWHERE

Growing Dahlias from Seed

Dahlias are easily started and grown from seed as tomatoes, cabbage or pepper, with bloom in the first season and will make as large bushes and produce as many flowers as if grown from roots. They will, at the same time, produce roots that will give you, almost invariably, the same kind of flower as the plant gave the preceding year. Roots will invariably produce the same kind of plant and flowers as produced the root; however, this is not true of seed. Seed will produce seedling Dahlias which will be entirely different varieties, and while some may resemble the parent plant, it will always be different, and in many cases the plants, foliage and flower from the seed will be so different as to have no resemblance whatever to the parent. This is because the Dahlia has been so highly developed through a long period of years from a tropical and semi-tropical plant to a plant that now produces more beautiful flowers in the north temperature zone than its original ancestors did when it was first found growing wild in Mexico, and also

KENDAL DAHLIA GARDENS, INC.—Sandusky, Ohio

due to the fact that the pollen from one flower is naturally distributed over many others, resulting in a natural crossing of varieties, giving new seed an inheritance of some of the characteristics and habits of all that has gone before in its parent plants.

However, it is just this uncertainty that makes the growing of Dahlias from seeds so interesting and there is always the possibility of developing a new variety which will be superior to any we have as yet discovered. Many new varieties are produced from seed each year that are well worth while and there is considerable pleasure in discovering them. In the bulletin issued by the many Dahlia Societies and in the magazines devoted to flower culture, there is much argument and discussion about whether better Dahlia seedlings come from seed that are artificially, or hand crossed, or whether the best seedlings come from seed which are grown where the crossing or pollenization is produced naturally by the pollen being carried from one flower to another by the wind, bees, butterflies, or other insects, and the discussion still rages.

We take some seed by experimenting with hand crossing or pollenization between flowers we like, trying to produce the best characteristics of both in the seed, and we take some seed from our best flowers, relying upon the natural crossing and pollenization by the wind, bees, etc.; and while the artificial crossing is interesting, we find where we exercise great care in the selection of the parent plants, which we believe is the great essential in producing the best seed, that the result from natural crossing is entirely satisfactory, and, where we have selected our own seed, and where we have bought seed from reliable growers produced naturally, we find that those results are entirely satisfactory. While we will continue to experiment with artificial crossing, getting a great deal of satisfaction out of the experiment, we will continue to rely upon seed produced through natural crossing as well.

The seed which we offer for distribution is either grown by ourselves and selected carefully or seed grown for us by reliable growers in whom we have the greatest confidence. We plant from both of the varieties of Dahlia seed we offer. It is hard to tell which gives the best results. We find them both satisfactory. No experiment with the flowers in your garden will give you more agreeable surprises or pleasure than your Dahlia from seed. Try them in 1934.

Instructions for Planting Dahlia Seed

Dahlia seed should be planted in shallow boxes which have been filled three-quarters full of sandy leaf mould or any good garden soil, just like you use for sowing cabbage or tomato seed, in March or April, preferably for this latitude. Smooth the surface of the soil over with a smooth board. Then place the seed about an inch apart each way or place the seed in little furrows about $1\frac{1}{2}$ to 2 inches apart in the earth made by passing the sharp edge of a ruler or other similar tool on the surface and cover seed with an eighth to a quarter of an inch of sharp sand and earth equally mixed, just as you would cabbage or tomato seed. Place the seeds in a warm, moist place indoors and see that the soil is not permitted to become dry. Do not place outside unless you are in a frostless belt.

To preserve moisture, glass may be put over the boxes or flats, but if the sun shines on them, they should be protected from the sun by a single sheet of paper over the glass, otherwise too great a heat will develop between the glass and the soil and your plants will dry up. Remove the paper at night or in dark weather. Some seed will sprout in four or five days, some in ten days and they will continue to sprout for two months. Many say the slow sprouting seeds produce the finest and best Dahlias.

When the seeds are up and about one inch high, take them out and transplant them either to another box or flat, spaced three or four inches apart, or put them into three inch pots. Do this without interfering with the other seeds by using a sharp, pointed stick, driving it down into the soil next to each seedling and lift same up. In the pots they can be kept growing slowly until ready to go in the open, and when planted in the open they should be planted about one and one-half feet apart, allowing two or three feet between the rows. Transplant to the open garden only when danger of frost is over.

When transplanting to the open ground, set the plant so that it will be one and one-half to two inches lower than it was in the pot or flat, then cultivate the same as you cultivate other Dahlias, but do not stake and do not disbud. This will enable you to observe the habits of the plant under natural conditions. Those plants which do not show themselves with merit should be immediately chopped out and this will give plenty of room for the plants which are worth while.

If these instructions are followed, practically all your seeds will make large plants that will produce a profusion of blooms the first year. They will make good clumps of roots which should be lifted after the plants are cut down by frost. Mark each clump with a number and write a description of its habits of growth, flowering, stem, colors, size and variety for future reference. Do not hesitate to discard any Dahlia not worthwhile. Store the clump, from seed in a dry frost-proof ventilated cellar and after marking it is a good plan the first year to wrap the new clumps you decide to keep in newspapers and store in boxes. If your roots produce true three years without reverting or changing your new Dahlia will likely continue to prove satisfactory. For prices see bottom next page.

A WINDOW DISPLAY OF SOME DAHLIAS ORIGINATED FROM SEED IN KENDAL DAHLIA GARDENS, NONE OF WHICH HAVE BEEN INTRODUCED. ARE THEY NOT PRETTY?

NO OTHER SECTION OF OUR GARDENS IS MORE INTERESTING OR INSTRUCTIVE THAN OUR SEEDLING SECTION.

DAHLIA SEED

We are offering three varieties of dahlia seed. The count in all our packages will over run so that you will be sure to get the number of plants your package calls for in seed. Try them.

SEEDS FROM NAMED PARENTS

We have a few hundred Dahlia seeds which have been kept separate of each of the following named varieties, which we can furnish separately. Since we do not have a large stock of this, will you please make second and third choices. They are as follows: Adaline Winter, Jane Cowl, Fort Monmouth, Thomas A. Edison, Kendal Sweetheart, Amun Ra, Jersey Mammoth, Marmion, Jersey's Beacon, Mrs. I. De Ver Warner, Polar Snow, Robert Scott, Rose Fallon, Treasure Island, William H. Hogan, Edna Ferber, Papillon, Mother Machree, Sanhican's Magnate, Robert Treat, Avalon, Bonnie Blue, Grover Whalen, Halvella, Jersey's Beauty, Pride of California, Paisley.

Package of 25 seeds, named parents, \$1.50; 50 seeds, \$2.75; 100 seeds, \$5.00, postpaid.

XX SELECTED MIXED—This seed is gathered from the finer and better decorative, cactus and peony types and then mixed. Particular care has been given in the selection of parent varieties in order to get the best results possible. Seeds are taken only from those flowers which are the largest, the most desirable color and the best stems. After the seed is selected it is mixed. This seed is either our own seed or is grown for us by responsible and reliable growers and will produce a large number of very fine specimens. Some of our best reports come from our XX Selected Mixed Seed.

Package of 30 seeds, \$1.00; 100 seeds, \$3.00.

SEEDLING SEED—Gathered from the best types of dahlias in the Seeding Section of our Gardens. These should give a good account of themselves.

Package of 40 seeds, \$1.00; 100 seeds, \$2.00.

XX SPECIAL MIXED—This seed was gathered from a selected list of decorative and cactus dahlias noted for their outstanding colors and characteristics and mixed in approximately equal quantities of seed from such parents as Elite Glory, Eagle Rock Beauty, Cigarette, Margaret, Woodrow Wilson, F. T. D., Robert Scott, Trentonian, Sagamore, Bashful Giant, Mrs. I. De Ver Warner, Faith Garibaldi, Emma Marie, Jersey's Ideal, Jersey's Beacon, Jersey's Mammoth, Judge Marean, Wizard of Oz, Jersey's Beauty, Daddy Butler, Roman Eagle, Altamont, Gladys Sherwood, The Grizzly, Amun Ra, Rookwood, Alice Whittier, Mrs. Ethel F. T. Smith, Judge Marean and others of equal or superior merit. We consider this one of the finest mixtures possible for good results.

— Package of 25 seeds, \$1.00; 100 seeds, \$3.50.
